

Optimizing a Wheelchair: Using the Technology to Ensure Ongoing Success

This course is approved by the National Registry of Rehabilitation Technology Suppliers (NRRTS) for 1 contact hour, or .1 CEU.

“Optimizing a Wheelchair: Using the Technology to Ensure Ongoing Success is a TOTA Approved Course from March 14, 2023, to March 14, 2024-- Course #463-29.”

This activity has been approved by the Texas Board of Physical Therapy Examiners, approval 75879TX, for 1 CCU for PTs and PTAs.

To receive your CEU credit for having completed this course, you must go to www.brainsbuilder.com (or scan QR code on the right) and select “TAKE AN ASSESSMENT”.

Assessment ID: “ _____ ” Password: “ _____ ”

Follow the steps to enter your information, respond to the feedback questions, and respond to the few test questions. After you’ve successfully completed the test your CEU certificate will be emailed to you within the next few minutes.

We suggest you add noreply@brainsbuilder.com to your email contacts or safe list. NOTE: Use your personal email and look for the certificate attached as a PDF – (bellsouth, aol, sbcglobal.net, and many hospitals and government agencies will block this email if it is not added to your safe list). Check your spam or junk mail folder if you don’t see this email within a few minutes. On a mobile device, please note that you may have to scroll all the way down on the email to see the attached pdf certificate file.

You will have **14 days** from the date of the course to complete the online process above.

Microsoft Internet Explorer or MS Edge users: Microsoft announced an “end of life” for these browsers effective November 2021. Recently, we have received reports from a few people who’ve had problems with logging into the brainsbuilder.com website. They get a message that says they have exceeded the number of attempts when in fact they have not had any previous attempts or been in at all. To avoid this issue, or if you are encountering this issue when trying to log in, please try using a different internet browser.

Please note that while we have approvals with state OT and PT associations in a few jurisdictions, and many other states have reciprocity acceptance in place, we cannot guarantee that CEU credit will be acceptable in all circumstances. Ensuring approval with local state boards or other entities for CEUs is the responsibility of the individual.

“NRRTSCE is certifying the educational contact hours of the program and by doing so is in no way endorsing any specific content, company, or product. The information presented in this program may represent only a sample of appropriate interventions. As an IACET Accredited Provider, The National Registry of Rehabilitation Technology Suppliers offers CEUs for its programs that qualify under the ANSI/IACET Standard. This course is approved for .1 CEU.”
